

SEED TREATERS

1,000-10,000 UNITS

BOX-TO-BOX SEED TREATERS

Treating your own seed is easier than ever with the AT500 box-to-box treater.

Ideal for:

- Seed dealers
- Growing seed companies
- Farmers with 1000+ acres

BENEFITS OF BOX-TO-BOX TREATING

FAST

Treats a box in 3-5 minutes. And up to 800 bushels per hour.

EASY

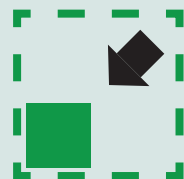

Simple controls make operating easier than pie.

ACCURATE

Seed flow metering and innovative atomizer technology make for precision treating.

COMPACT

No conveyors necessary and a small size make moving and storing the treater a breeze.

Plus, get family-friendly training and service from UAS.

SEED TREATERS

SEMI-AUTOMATED AT500

- Most affordable way to start treating
- Supports up to 4 pump stands
- Easy to calibrate, easy to operate
- Innovative atomizer technology ensures identical coverage and accuracy as a drum treater

AUTOMATED AT500

- Digital touch screen
- Comprehensive system with mounted pump stands
- Program multiple treatment recipes
- Pumps automatically change flow to meet desired chemical rates throughout day
- Eliminates over-treating

ADDITIONAL EQUIPMENT

UAS PUMP STANDS

Fill the 30-gal. poly tank with treatment or inoculant. Calibrate chemical rates on up to 4 flowmeters on the digital screen. Pump into treater. It's that simple.

PORTABLE TRAILER

Perfect for on-site treating. Just hitch it to your truck and take your treater directly to your customer (or neighbor).

DRY APPLICATOR

Attach to treater and calibrate. Provides accurate application of dry products like QuickRoots, Graph-Ex SA, Dust, Talc and dry polymer powders.
